

STONY PLAIN SUN

VOLUME FIVE

STONY PLAIN, ALBERTA, THURSDAY, FEB. 5 1925

Whole Number 286

It's Easy to Get Any
Station You Wish
with
the DeForest
Crosley.

DeForest-Crosley
Easy to find
Stations

THE first evening
you operate a
DeForest-
Crosley set you'll
capture stations
you'll want to hear
again! It is simple
---easy!

Just make a note
of the numbers on
the dials for each sta-
tion---turn to these
numbers again at
any time the station
is broadcasting---
and you get the very
station you want.

This easy calibra-
tion is a source of
infinite satisfaction
to DeForest-Crosley
users.

Easy calibration
indicates exceptional
accuracy and result-
getting power.

Come in---see these
wonderful sets---we welcome
your inquiries---we will see
that you enjoy complete sat-
isfaction!

There's a Radiophone for Every Home
Six New Models---\$22 to \$450.

Calendar.

- Feb. 5--Town Council meets.
6--Meeting of the Good Roads
Association in Town Hall.
7--Dance at Schwindt's Hall in
Spruce Grove.
12--Women's Institute meets.
13--Women's Institute Valen-
tine Party at home of Mrs R
M Outway.
16--Basket Social and Concert.
Schwindt's Hall.
20--Concert by Y.P.S. of St.
Matthew's Church.
21--Inga M. D. ratepayers meet
in Stony Plain.
21--Meeting ratepayers Spruce
Grove Municipality, at the
Grove.

Sporting Notes.

Stony's junior hockey team
played the junior puck-chas-
ers from the Grove on local
ice Saturday. The Stony team
labored under the handicap of
being matched against a bunch
of older and heavier players,
and did very well under the
circumstances, getting 1 goal
to the Groves 4. Lorne Out-
way captained the local team.
H Leeblich bossed the men
from the Grove, and Clarence
Lory acted as umpire in a
very satisfactory manner.

High School hockeyists and
the Groves team are billed
to meet next Sunday at the
local rink.

With the Curlers

Following are the scores in
the scheduled games played:

- Jan. 28 (Brooks' team 7
(Lundy 15
(McCulla 13
(Schultz 10
Jan. 29--McCulla's team 11
(Schmidt 13
(Moyer 20
(Clarke 8
Jan. 30--(Lundy 10
(Schultz 9
(Schmidt 11
(Brooks 7
Feb. 2--Schmidt 12
(Moyer 10
(Schultz 10
(Clarke 8

No regular scheduled games
were played Saturday or on
Tuesday evenings.

Lady Curler Injured

While the curling was in
progress at the local rink last
Friday afternoon, Mrs. Mat-
tuch was the victim of a very
painful accident. While en-
gaged in coaxing a rock along
to its wished for position by
sweeping away the obstacles,
the lady stepped backward
among those already laid,
knocking her head on one of
those, and twisting her wrist
while falling. She was helped
by her companions to Mrs.
Lory's residence, and Dr Out-
way was summoned, and her
injuries attended to. She was
later removed to her own re-
sidence, where she now is
resting easy.

FOR SALE, 4-roomed house and
lot, close to school. Apply Sun
Office.

LOCAL NEWS.

This is Radio Week
and all the broadcasting sta-
tions are giving special pro-
grams.

Mr. Adolf Doll, a former
resident of Stony but now of
Leduc, is visiting here this
week with old friends.

Mrs. Albert Loeblich left
last week for her new home
in the north country, where
Albert is for the third succe-
ssive term running the engine
for a big Edmonton concern.

W. M. Wushburn, M. L. A.,
will represent the local agri-
cultural society at the Fairs
Convention in Calgary this
week.

Henry Gabel has returned
to Letham, after a short visit
here with his parents.

A bunch of hockey fans
who had figured on witnessing
the Saskatoon-Eskimo match
Friday night were disappoint-
ed, through the lateness of
the train.

Arrangements are being
completed to have the sec-
retary-treas. of Inga M. D., Mr
E. H. Pidgeon, have his per-
manent residence in Stony
Plain, and it is expected he
will shortly remove here with
Mrs Pidgeon.

Monday morning's train from
Vancouver was 9 hours late,
while yesterday's train from
the Coast was late about the
same time.

Mr. Th. Wodel is attending
the trustees' convention in
Calgary this week.

Mr. Barth opened his new
barber shop on Main street
Saturday and was well pat-
ronised.

Inga Councilors meet in
Stony Plain, Saturday Feb.
21. A public meeting of the
ratepayers will then follow,
when nominations will take
place for the councilors in
Divisions 1, 3 and 6.

Tomorrow evening, in the
Town Hall, a meeting under
the auspices of the local
branch of the Edmonton Auto
and Good Roads Ass'n will be
held, when Mr. F. S. Wright of
Edmonton will give an ad-
dress. Better roads in winter
will be among the subjects
discussed.

The monthly meeting of
the Stony Plain Womens In-
stitute will be held at the
home of Mrs. R. Walton, on
Thursday, February 12th.
The speaker for the afternoon
will be Mr. R. B. Brooks.
Members are requested to
bring two recipes written out
for the recipe book, as ex-
plained at the last meeting.

At the nomination meeting
in the Town Hall, on Monday
February 2d, the following
gentlemen were nominated
for the position of Council-
ors for the next ensuing two
years (four to be elected)--
A. E. Michael, Dr Outway, H
Miller, L. Zilliox, J. H. Lory
M. Ducholke.

The Tariff—An Economic Issue

For the past forty years or more the Customs tariff has been a hotbed, and more often than not a bitterly contested issue in Canada. Essentially an economic question, it was made into a partisan issue and election after election has been fought between rival political parties with the tariff the main point of divergence between them, with high tariff and protection advocated by the Conservative party, and lower tariff, or a tariff based on the revenue requirements of the country rather than the protective principle, advocated by the Liberal party.

Admittedly this economic question should never have been made the football of party politics. The country has suffered because of it. Inasmuch as taxation is involved in the question of the tariff it must, of course, remain a political issue in its broadest sense, but it should not be a partisan issue. Just how to divorce the two is the problem.

Fortunately for Canada there is a growing tendency to regard the tariff as an economic rather than a partisan issue. Today there are men in the ranks of the Liberal party who favor high tariff and protection. Even in the Progressive party there is a divergence of opinion, the average Progressive in the East not seeing eye to eye with Western Progressives in this particular.

While the population of Canada was largely to be found east of the Great Lakes, and the policy of Protection was accepted as necessary to the upbuilding of manufacturing industries, differences of opinion in regard to the economic effect of the opposing tariff policies did not actually endanger the Dominion. Now, however, with nearly a third of the population west of the Great Lakes, the economic rather than the old partisan aspects of the tariff controversy loom large, and the gap between east and west is widening.

It is not pleasant to contemplate this, but it would be worse than foolish to ignore it, nor would it be patriotic to do so. The real patriot is the one who faces the existing situation and seeks to discover a remedy. The two schools of economic thought are as far apart as the poles. Stated bluntly, the industrial East states it cannot survive without high tariff protection, while the agricultural West declares just as emphatically that it cannot grow and prosper so long as it is maintained.

In view of this seeming impasse there are those who argue that Canada has come to the parting of the ways, and that the only thing to do is to cut the Dominion in two at the Great Lakes and create not one but two British self-governing units out of British North America, thus allowing the East to have all the tariff and protection they want without placing a handicap on the West, and allowing the West to go in for a very low tariff or free trade without thereby forcing such a policy on the East to its detriment.

Advocates of such a policy are, as yet, few in number, nor do such views find acceptance with the vast majority of the Canadian people. A policy of separation should, and will, receive serious consideration when all other efforts to bridge the chasm have failed. Both East and West, however, must fully realize that the present differences must be adjusted, and, until some time of time, or there is grave danger that the idea of separation will pass from mere theoretical and academic discussion into the realm of practical issues.

The only thing to do is to forget partisan politics in all future discussion and consideration of the tariff question and deal with it solely as an economic and financial matter affecting the whole Dominion and every person and industry in the country from the Atlantic to the Pacific.

Partisan politics have no place in this particular column of this paper, but economic questions and social problems affecting the life of Canada have first place, and no apology is required for discussing the greatest of all our economic questions, namely, the Customs tariff, when such discussion will pass from mere theoretical and academic discussion into the realm of practical issues.

Eastern people and interests can be depended upon to present their views and urge their policies. In this column the view of the West will be presented from time to time because the tariff issue must come to a head soon, as between East and West. The present position is too dangerous to allow it to continue. Existing differences can only be met by compromise. The West cannot get everything it wants, and the East must recognize the fact that conditions have changed with the settlement of the West, and will continue to change as our development and growth proceeds, with the result that the East cannot retain everything it has hitherto enjoyed in the way of tariff protection.

Drought Causes Leaves to Fall

Drought, not frost, causes the leaves to fall in autumn. The sap is stopped causing the leaves to change color and wilt. The wilting, the changing to a brown or yellow or red, is not caused by freezing but by a drying out of the leaf moisture.

Against Games of Chance

A recommendation that the Alberta Government cancel its grants of \$5,000 each to the agricultural fairs of Calgary and Edmonton unless games of chance at those fairs are eliminated was adopted by the United Farmers of Alberta.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher* Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Great Air Base At Singapore

Will Be Largest Base For Commercial Airships on Australian Route. A great air base, combining military and commercial features, will be built by the British air ministry at Singapore, according to the London Daily News correspondent. The aerodrome, situated at Pagar, with a fleet of Napier-Palmer amphibian aeroplanes, is already carrying out extensive survey work from the air.

Singapore will be the biggest base for commercial airships on the England-India-Australia route. Mooring masts, gas plants and other necessary equipment will be erected. The station will also act as a naval base and patrol station for the whole of the eastern seas.

Mothers' Best Friend In Rearing Children

Pain and sudden sickness are apt to come upon us at any time, and safety lies in having always handy on the shelf a reliable pain relief like good old Mother's Friend. For nearly half a century Mother's Friend has been a family standby, and most mothers have come to rely upon it in case of colds, sore throat, light chest, sprains, cramps, nausea and sudden attacks of sickness at the stomach. For internal or external use, Mother's Friend is worth its weight in gold in every home, and costs but 35 cents at any dealer's.

Plan Military Organization U.S. to Study Activity of British Women During War

The war department is making a study of the organized activity of British women with their armies in the Great War as a basis for a probable military organization of women in this country in time of emergency. Major-General John Hines, chief of staff of the United States army, said in an address before the Women's Republican Club of Massachusetts.

MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble, for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will soothe the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and are guaranteed to be entirely free from opiates and narcotics. Concerning them, Mrs. Jos. T. O'Sullivan, St. Joseph, Mo., writes: "I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little baby to health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockton, Ont.

Interesting Baby Book

Valuable Advice in Connection With Care and Feeding of Babies. Undoubtedly the most interesting reading for the young mother is that which deals with the care and feeding of babies, particularly if the subject is treated in simple language for all to understand. Clearly, we have just received a booklet, "Baby Welfare," which is one of the most interesting and instructive we have seen in a long time. It has chapters on prenatal care, Feeding of Baby, Bottle Feeding, Supplementing Breast Feeding, Diet After First Year, Food Formulas, Sleep, Fresh Air, Exercise, Bathing, Clothing, Baby's weight and Measurements, with sundry hints as to safeguarding of baby's health against common ailments. There is also a page devoted to Baby's Biography, which should be an interesting record of the little one's activities when it is filled in, and a Weekly Record for Baby's Weight and Height, which the mother can fill in. In the introduction the publishers say that they have purposely omitted suggestions pertaining to medical treatments, knowing that such information should properly come from the family physician when such advice is needed. Mothers desiring a copy of this most helpful book can obtain one, free, by writing to The Baby Welfare Department of the Borden Company Limited, 180 St. Paul Street West, Montreal, mentioning this paper.

For Every Ill—Minard's Liniment

W. N. U. 1562

Span Rockies By Phone

Long Distance Telephone Established Between Calgary and Vancouver. The first long distance telephone conversation ever held between Calgary, Alberta, and Vancouver, British Columbia, was recorded recently when the wife of chief of the telephone company at Vancouver conversed for several minutes with a Calgary newspaper man. Both parties exchanged news of weather conditions, the result of the hockey matches and a general conversation on the merits of the new service. The call was in the nature of a test and, before ringing off, the telephone office official at Vancouver expressed himself as being pleased with the clearness with which the conversation was heard. The distance from Calgary to Vancouver is 612 miles, through the Rocky Mountains.

Makes Important Discovery

Member of Rockefeller Institute Finds Origin of Cattle Disease. Dr. Edmund V. Cowdry, of the Rockefeller Institute, New York, who was sent to Pretoria at the invitation of the South African Government, has discovered a micro-organism causing a disease known as "heart water" in sheep, goats and cattle. The microbe resembles closely, but not identically, other organisms causing typhus, trench and other fevers in man. "Sir Arnold Theiler, director of veterinary education and research here regards the discovery as of the highest importance."

Help For Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passages. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Denounces Speculation. Senator Shipstead (Farmer-Labor, Minnesota), denounces the Coolidge administration for "encouraging wild orgies of speculation in Wall Street," by letting the federal reserve bank rediscunt paper given for speculative purposes. He said it would bring about a collapse which will seriously affect agriculture.

It Testifies for Itself.—Dr. Thomas' Ecolerite Oil needs no testimonial of its powers other than itself. Whoever cries fit for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

British Battleship Sunk. The British battleship, Monarch, was sunk off the Sicily Isles in accordance with the Washington arms treaty. She provided a target for aircraft, light cruisers and battleships, and when the big ships went from the scene there was no sign of her left.

WHEREVER you buy it and whenever you buy it, Magic Baking Powder is always entirely dependable, because it contains no alum or adulterants of any kind. MADE IN CANADA. E. W. GILLET LTD. TORONTO. WINNIPEG MONTREAL.

Don't For Mothers. Don't slam a door after telling a child always to close it gently, and don't make a youngster for shouting with your own voice raised to sky-scraping heights. Don't allow a child to be deliberately cruel to any living thing. Tell the boys that it is neither daring nor manly to kick a dog or stone a kitten, but just low-down cowardice.

In all infantile complaints that are the result of the depredations of worms in the stomach and intestines, Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

Aged Primates to Visit Rome. Cardinal Begin, S. J., Roman Catholic primate of Canada, will visit Rome this year, leaving Quebec on May 5. His entourage will be accompanied by a number of pilgrims on the occasion of holy year.

For First Aid—Minard's Liniment

Small drinking glasses used in early New England were dubbed "snook cups."

The more money you have the easier it is for you to practice economy.

FOR Preliminary ASPIRIN

Proved safe by millions and prescribed by physicians for

Rheumatism Colds
Headache Pain
Neuralgia Toothache
Lumbago Neuritis

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer's manufacture of Aspirin. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

The Horse Raising Industry Can Be Put On Sound Basis By Breeding The Proper Type

An investigation of the horse industry during the last ten years shows a very considerable change in breeding conditions, also, but to a lesser extent, in the types of horses wanted. Ten years ago, the horse population of Ontario exceeded that of any other province; in fact it was almost one-third of the horse population of Canada. For a number of years previous to the outbreak of war, as high as 10,000 horses a year were shipped to the western provinces. Almost all number were to be found good and had, young and old, sound and unsound; in fact, the west was the dumping ground for what Ontario did not want. The prices, however, which were paid for these animals were exceedingly high, quality considered.

Now the tide has set in the other way. In 1922, 10,000 horses passed through Winnipeg on their way east. Half of these stayed in Ontario. During the first six months of the last year, 71,500 horses were sent eastward, the rest being distributed through Quebec and the three Maritime Provinces.

During the last two years of the war, and the following two or three, many thought that the truck and the tractor were going to practically displace the horse, not only in the cities, but on the farms. However, it has since been proven that while it was possible to use tractors when war prices prevailed, it is a very different story under present conditions. The necessity of utilizing the cheapest form of power is significantly apparent to our farmers today. This power is unquestionably supplied by the horse.

The various types of horse in demand today may be roughly given as follows: Heavy draft, saddle and hunters. By heavy draft is meant, horses weighing upwards of 1,600 pounds, and particularly over 1,800 pounds. These are wanted for city dray work. A somewhat lighter draft may be used on the farm, but enough of these will be secured when attempting to breed good big ones. There are also horses wanted for lumber and mine work. These, while not required to be of extreme draft weight should be fairly set, strongly built, and capable of standing hard work. In fact from address prepared by C. M. MacIntyre, chief of the horse division, Dominion livestock branch.

Canadian Barley

Good Market Is Available In Britain For Canadian Product

Lord Biddislee, one of the large agriculturalists of Britain, having recently returned from Canada where he was one of the delegates to the meeting of the British association, called on the Canadian high commissioner to discuss investigating the possibility of increasing the marketable supply of Canadian barley, as compared with European barley now sold in Britain and indicated that the pig industry, particularly of the western counties and Wales, was in a measure dependent on barley grown outside of Great Britain.

Dairying In British Columbia

Demonstration Dairy Farm To Be Established In The Kootenay District

Active measures are being taken by the Dominion experimental farm to enter the dairying industry in the Kootenay district and to this end the department has acquired a 250-acre holding of land adjoining Windermere, where they have erected modern dairy buildings to thoroughly demonstrate the dairying industry. Fungus stock has been secured from the central experimental farm at Ottawa, as well as from the Pacific coast.

Trade Agreement With Germany Canada has entered into negotiations with Germany for a trade agreement which will give her the benefit of the most favored nation agreement. Reports to that country were recently doubled during 1924, and at the close of the year Germany was practically in the position of being Canada's third best customer.

W. N. U. 1563

Alberta Seed Fair

Quality of Exhibits Said to Be Superior To Other Years

Over five hundred exhibits of Alberta seed grain were on display at the annual seed fair held in Calgary, and while this is not so many as last year, the quality was adjudged considerably better. Some of the samples and net prices to the producers were 27½ cents a pound of all weights in No. 1 quality, with 25½ cents a pound for No. 2.

Annual Cattle Show

Alberta Cattle Breeders to Hold 29th Annual Show In April

The Alberta Cattle Breeders' Association announce their 29th annual cattle show and bull sale for April 6 to 11, at Calgary. In the 54 sales which have been held, \$1,389,900.00 worth of bulls have been sold, and at every sale S. W. Palmer has been the chief auctioneer, though as the sales have gained in size he has had to have additional assistance from year to year. He will open the sale again this year.

All animals will be sold subject to their passing the tuberculin test unless certificate is produced that they have passed the tuberculin test, under government supervision, within six months of date of sale. Animals not so tested will be tested after arrival at Calgary and should be shipped in time to arrive in Calgary not later than the evening of April 6.

Fox Farming In B.C.

Industry Is Showing Signs Of Remarkable Growth

That British Columbia is taking her place with the other provinces in fox farming is shown in the increasing interest in foxes in that province. Breeding farms have been inspected by Kootenay, Okanagan, Thompson River, Fraser Valley and Vancouver Island farmers during the past few months, which gives some idea of the activity in fox farming. The farms which have been established for some time have been successful, and this no doubt has given an impetus to the business.

Alberta Agricultural Production

Agricultural Products Had A Total Of \$226,449,557 For Last Year

Agricultural production in Alberta during 1924 had a value of \$226,449,557, as compared with \$225,814,304 in the previous year, according to a preliminary estimate of the provincial department of agriculture. Though the general production in field crops was much less than in 1923 the prices received were so much higher as to bring the total value up.

An Effectual Cure

Pursued by hunters, a wild boar crashed into a private house in the village of Grand Malvern, near Bourges, France, and made his way into a bedroom where an invalid had been lying for months. The sick man shrieked for help, then arose and jumped out of the window. The wild boar was finally killed. The invalid has returned to work.

Pearl Buddha

The Chinese insert a small Buddha in an oyster shell and the result is that these tiny figures become coated with the nacreous substance, just as the pearls or sand would become coated with this substance and become a pearl.

Permanent Turkey Pool

Saskatchewan Selling System Brings Satisfactory Returns

Permanent establishment of the Saskatchewan turkey pool is fore-shadowed by officials of the provincial department of agriculture and the Saskatchewan Grain Growers' Association co-operating in the operation of the turkey pool this year.

"Shippers of farm-dressed turkeys are congratulating themselves on the excellent prices received for their birds handled by the Saskatchewan Co-operative Grain Growers, the pool selling agents," states W. Waldron, acting markets commissioner. Final payments have now been sent out and the net prices to the producers were 27½ cents a pound of all weights in No. 1 quality, with 25½ cents a pound for No. 2.

Immigration

Administration of Policy Should Be In Hands of Independent Commission

Assuming the willingness to inaugurate an aggressive immigration and colonization policy, the actual administration of it should be entrusted to an independent commission composed of some of the biggest men in the country who would undertake it out of a keen sense of national duty and a realization of the fact that it presents the main solution to present problems. Such men, given a free hand, applying to the problem the business acumen and initiative that has made them successful in private enterprises and assisted by an improved state of agriculture in Canada, could produce results that would soon bring about a marked change in Canada's economic position. —The Edmonton Journal.

Saskatchewan Wheat Pool

Acres Under Contract Has Been Increased In Last Month

According to officials of the Saskatchewan wheat pool organization, the acreage under contract has been increased by more than 100,000 acres in the last month, placing the present total at 7,250,000 acres.

With the market continuing on an upward trend, no time limit for accepting new contracts has been set. It is claimed the amount of the wheat handled by the pool proves violations of contracts have been practically nil. Only two cases, it is declared, have been brought to official notice.

Should Go To Russia

Nothing To Prevent Communists Enjoying Their "Paradise"

After all, there is no reason whatsoever why communist plots should be tolerated. If the communists really believe that Russia is an earthly paradise, there is nothing to prevent them from emigrating there en masse. The rest of the world would be only too glad to be rid of them. But if they do not believe in the success of bolshevism, then they see humbug and traitors when they attempt to reproduce the misery of Russia in civilized countries. —London Daily Mail.

Ants can swim, using their six legs like a six-oared boat.

Canada Should Take Advantage Of The Favorable Conditions For Developing Tourist Trade

Protecting Trees

Shade Tree Insects Cause Damage In Prairie Provinces

The shade trees of the prairie provinces have suffered severely from insect injuries during recent years. Large numbers of them are being planted each year on the prairie farms and the entomological branch of the department of agriculture at Ottawa is making a special effort to aid in protecting them from insect injuries. A laboratory has been established at Indian Head, Sask., to conduct needed investigations on the control of shade tree insects and to recommend effective methods for prevention and control of injuries. More than thirty species of important shade tree insects, of which the forest tent caterpillar is prominent, are receiving attention at this laboratory, which is conducted in close cooperation with the tree planting division of the forestry branch of the department of the interior. Mr. J. Z. De Gorge is in charge of the entomological laboratory at Indian Head, to whom enquiries should be referred.

No Shortage Of Cattle Space

Ocean Freight Rate Still Remains At \$20 Says Dr. Grisdale

"There is no shortage of cattle space on the boats for all cattle available for export to the Old Country, and the price of \$20 per head still remains the ocean freight rate," stated Dr. J. H. Grisdale, deputy minister of agriculture, in an interview at Winnipeg. "I consider," said Mr. Grisdale, "that space is available for all the cattle available, though the boats may not always be sailing to the port required. The price of \$20 is still in force, though extra money is, at times, charged for diverting the boat to another port."

Dr. Grisdale referred to recent reports of cattle exporters not being able to secure the necessary space when required.

Shows Great Development

Holstein-Friesian Association of Canada Has Good Report

The statement to be presented at the annual meeting of the Holstein-Friesian Association of Canada by the secretary, W. A. Clemons, will show that the association had 16,440 registrations last year, which is some 2,200 better than the previous best year which was 1921, and nearly 5,000 better than 1923. The financial statement will show a cash balance of well over \$15,000, as compared with a deficit of \$125 in 1924. The surplus of assets over liabilities at the present time will total well over \$52,000.

U.S. Motion Pictures

The motion picture output of the United States in 1923, based generally on the cost of production, was valued at \$88,418,170, an increase of 11.7 per cent over 1921.

"Tourist traffic is one industry ripe for development in Western Canada at the present time," is the statement of one of the engineers of the Natural Resources Intelligence Service of the Department of the Interior, on returning from an investigation of the natural resources of Southern Alberta and British Columbia. This engineer states that our attractions to tourists in this area constitute one natural resource ready to "cash in" on immediately with little expenditure, and no diminution of the original assets on which it is found.

Canada has the natural attractions to meet any competition for the American automobile and other tourist traffic. She has the big game and other sporting attractions, the waterways, scenery, summer climate, and so on. The service provided by our railways is the best and our highways are now comparable with many of the main highways in the United States, and they are being rapidly extended and improved.

We have the material to sell and we have a ready market, creating a situation of remarkable possibilities. It is a situation which has developed very abruptly—mainly within the last few years. Next door we have a nation, with nearly 110,000,000 people and over 15,000,000 automobiles, bordering us clear across the continent. Most of the motor cars are owned by people with the means and inclination to travel. It is doubtful whether any country ever faced such favorable conditions as Canada enjoys today with regard to the tourist traffic—a class of business which has long been earned as a large source of income in such countries as France, Italy and Switzerland.

In the report of the United States foreign trade for 1923 the expenditure of tourists abroad is estimated at \$500,000,000. The increasing tourist travel in Canada bids fair to absorb a considerable portion of this annual expenditure.

What is required more than anything else to take full advantage of this situation and to create a still more thriving and remunerative industry is a spirit of co-operation among the various organizations dealing with this traffic. The efforts of the Natural Resources Intelligence Service are being directed toward this end.

As an agency for selling interest in our natural resources, Canada's tourist traffic plays an important part. The American tourist generally has an eye to business and to pleasure. Many of them make their trips to Canada a tour of investigation, resulting often in investments in this country. Canada's business growth has created an interest among American business men in simply remunerative as contrasted with their attitude toward the Dominion only ten years ago.

To Protect the Farmer

Miss Bondfield Urges Censure Regarding Area To Be Sown To Wheat

A sort of world census regarding the area to be put under wheat, with a fixed price for the wheat, as an insurance scheme in which farmers could be compensated for "what is known generally as the acts of God" is the gist of a suggestion contained in a speech delivered by Miss Margaret Bondfield, former parliamentary secretary to the British minister of labor, when dealing with the world's wheat supply. Miss Bondfield described the present system as a "catch-as-catch-can, and purely individualistic policy," and thought that the scheme would result in a more scientific and more reliable basis on which to put the wheat growing of the world.

Architecture Exhibit

Canada will have a place in the New York exhibition of current architecture. The invitation extended by the American Institute of Architects has been accepted, and contributions are to be submitted. Institutions were also extended to England, France, Italy, Spain and other countries. The Royal Architectural Institute accepted for Canada.

The man who really knows a lot about a thing usually is willing to admit that he knows nothing.

WINTER BATHING

At English Bay, Vancouver, B.C. Miss Maude Webb, in the center, takes a morning dip the year round. Anyway it doesn't look very cold, does it?

Warms you through and through Hot Bovril

Copyrighted, 1922, by Rafael Sabatini
"CAPTAIN BLOOD," a Vineyard picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

SYNOPSIS

Peter Blood, a young Irish rebel, is arrested as a Monmouth rebel by soldiers of King James and sentenced to death by the bloody Lord Jeffreys. The King, however, realizing the need of man power in the colonies, orders the rebel-convict sent to the Barbadoes to be sold as slaves. Blood and his friend, Jeremy Pitt, with fifty others, are shipped to Bridgetown. There Colonel Bishop, military commander, at the behest of his niece, Arabella Bishop, purchased Blood for ten pounds when he learns that he is a skilled physician. Arabella offers her friends to Blood but in his own bitterness over the cruelty of his position he does not at first understand the true character of Arabella. Later he comes to know her true worth. A Spanish galleon commanded by Don Diego de Espinosa y Valdez attacks Bridgetown and the Spaniards sack the city. Blood saves Mary Trull from a Spanish ruffian and sends her and Arabella to safety back of the town. He then marshals his fellow rebel-convicts together and they capture the galleon while the crew is feasting and ravaging the city.

CHAPTER IX.—Continued

Crouching low, they glided, noiseless as shadows, to the quarter-deck rail, and thence slipped without sound down into the waist. In the vessel's waist they hung awhile, until Mr. Blood had satisfied himself that no other sentinal showed above decks but that inconspicuous fellow in the prow. Their first attention must be to him. Mr. Blood, himself, crept forward with two companions, leaving the others in the charge of that Nathaniel Hagthorpe whose sometime commission in the King's Navy gave him the best title to this office.

Mr. Blood's absence was brief. When he rejoined his comrades there was no watch above the Spaniards' decks. Meanwhile the revellers below continued to make merry at their ease in the conviction of complete security. Suddenly out of an unthought pack of savages that beset them, stepped a slim,

tall fellow with light-blue eyes in a tawny face, eyes in which glinted the light of a wicked humour. He addressed them in the purest Castilian. "You will save yourselves pain and trouble by regarding yourselves my prisoners and suffering yourselves to be quietly bestowed out of harm's way."

"Name of God!" swore the gunner, which did no justice at all to an unmarked beyond expression. "If you please," said Mr. Blood, and thereupon those gentlemen of Spain were induced without further trouble beyond a musket prod or two to drop through a scuttle to the deck below.

It was soon after sunrise that the rebel-convict who paced the quarter-deck in Spanish corselet and head-piece, a Spanish musket on his shoulder, announced the approach of a boat. It was Don Diego de Espinosa y Valdez coming aboard with four great

A courtly, gentleman met Colonel Bishop

treasure-chests, containing each twenty-five thousand pieces of eight, the ransom delivered to him at dawn by Governor Sted. He was accompanied by his son, Don Estaban, and by six men who took the oars.

Don Diego mounted the ladder and stepped upon the deck, alone, and entirely unsuspecting. Before he could even look round, and survey this guard drawn up to receive him, a tap over the head with a capitan bar efficiently handled by Hagthorpe put him to sleep without the least fuss. He was carried away to his cabin, whilst the treasure-chests, handled by the men he had left in the boat, were being hauled to the deck. That being satisfactorily accomplished, Don Estaban and the fellows who had manned the boat came up the ladder, one by one, to be handled with the same quiet efficiency.

With Colonel Bishop at their head, and court-golden Governor Sted sitting on the ruins of a wall beside him, survivors on shore glaucly watched the departure of the eight boats containing the weary Spanish ruffians who had glutted themselves with rapine, murder and violence unpeaked.

The boats pulled away from the shore, with their loads of laughing, jeering Spaniards, who were still laughing loudly at the water as they saw their surviving victims. They had come midway between the wharf and the ship, when suddenly the air was shaken by the boom of a gun. A round shot struck the water within a fathom of the foremost boat, sending a shower of spray over its occupants. A second shot came to crumple one of

the boats into splinters, flinging its crew, dead and living, into the water. The resolute Ogle was making excellent practice, and fully justifying his claims to know something of gunnery. In their consternation the Spaniards had simplified his task by huddling their boats together.

If the Spaniards understood nothing of all this, the forlorn islanders ashore understood still less until he heard their wits they saw the flag of Spain come down from the mainmast of the Cinco Liagas, and the flag of England soar to its empty place. Ogle, however, continued to give proof that his knowledge of gunnery was not of yesterday. After the fleeing Spaniards went his shots. The last of their boats flew into splinters as it touched the wharf, and its remains were buried under a shower of loose masonry.

The mystery of the success that had come at the eleventh hour to wreak vengeance upon the Spaniards, and to preserve for the island the extortionate ransom of a hundred thousand pieces of eight, remained yet to be solved. That the Cinco Liagas was now in friendly hands could no longer be doubted after the proofs it had given. It remained to ascertain the precise identity of these mysterious saviours and do them fitting honors. Upon this errand went Colonel Bishop as the Governor's deputy, attended by two officers.

As he stepped from the ladder into the vessel's waist, the Colonel beheld there, beside the main hatch, the four treasure-chests, the contents of one of which had been conveyed almost entirely by himself. Ranged on either side, athwart the deck, stood a score of men in two well-ordered files, with breasts and backs of steel, polished Spanish morions on their heads, overgloved their faces, and muskets ordered at their sides.

A courtly gentleman advanced to greet him—a lean, graceful gentleman, dressed in the Spanish fashion, all in black with silver lace, a gold-lit sword dangling beside him from a gold embroidered belt, a broad castor with a sweeping plume set above carefully curled ringlets of deepest black.

"Be welcome aboard the Cinco Liagas, Colonel, darling," a voice vaguely familiar addressed the planter.

"Peter Blood! Was it you then?"

"Myself it was—myself and these, my good friends and yours."

"I am glad to hear of your escape from a note of foolish jubilation. And it was with these fellows that you took the Spaniard and turned the tables on those dogs. As God's my life, you deserve well for this."

"I am glad of your opinion," said Mr. Blood. "The question is how well we deserve, and how grateful shall we find you?"

"Why—his excellency shall write home an account of your exploit, and may some portion of your sentences shall be remitted."

"The generosity of King James is well known," sneered Nathaniel Hagthorpe, who was standing by, and amongst the ranged rebel-convicts some one ventured to laugh.

And one intervened—the brawny one-eyed Wolverstone, less mercifully disposed than his more gentlemanly fellow-convict. "Siring him up from the yard-arm," he cried. Mr. Blood turned.

"If you please, Wolverstone," said he, "I conduct affairs in my own way. That is the pact. You'll please to remember it." His eyes looked along the ranks, making it plain that he addressed them all. "I desire that Colonel Bishop should have his life."

One reason is that I require him as a hostage. If ye insist on hanging him,

BIG BEN

ye'll have to hang me with him, or in the alternative I'll go ashore."
(To be continued)

Chinese Geologist Finds Fossil Beetle

Age Has Been Estimated at Fifteen Million Years

In that most venerable land of old things, China, a scarab beetle, of an age that makes King Tut's reign a mere tick of the clock age, has just been turned up.

A member of the Chinese geological survey, working in Shantung, the sacred province of North China, found the fossil beetle in rocks of the Cretaceous period, or Age of Fishes, of an age estimated at 15 million years.

This makes the scarab easily the oldest beetle in the world. Evidently the genus has been very conservative in the matter of evolution, for this primitive scarab resembles very closely his present-day ath, degree great-grandchildren.

King's Lynn Is Historic

First Polar Expedition Said to Have Started From There in 1330

Prince Henry was recently created to the office of Lord High Steward of King's Lynn. This historic place was known as Bishop's Lynn in the days before the Reformation. It was during those years that the highwater mark of the ancient town's prosperity was reached, and Lynn, with her two noble churches and merchant princes, became the third port in the kingdom. From Lynn it is said the first Polar expedition on record was sent forth in 1330, and it was the birthplace of that notable adventurer, George Vancouver, who was born in the half-timbered cottage still standing in the yard of the Quaker Meeting House.

The Happiest Spot

The township of Salechio, in the province of Novara, Italy, is being hailed as the happiest spot in the world. In 1923 none of the 400 inhabitants died.

In 1924 none of them married.

A new German airplane has one-man wings that can be taken down and folded against the fuselage in two minutes.

The demands upon a mother's strength are many and severe: her own health trials and her children's welfare exact heavy tolls, while broken rest and much indoor living tend to weaken her constitution. No wonder that the woman is often indisposed through sick headache, backache, and nervous troubles. But varied as her health troubles are, the cause is simple, and relief near at hand. When ill, she is good blood that keeps a woman well; when ill, she must make her blood rich to renew her health; and the nursing mother—sure that any other—needs rich blood and plenty of it.

Care of diet, sufficient rest, fresh air, and Dr. Williams' Pink Pills will keep a woman well and regular. And because these pills make new blood abundantly, thousands of weak wives and mothers have derived prompt help from them.

Mrs. Stewart Grant, Stewacke, N.S., says: "After the birth of my first baby I did not regain my health. I could scarcely walk across the room because of the pains in my back. I began taking Dr. Williams' Pink Pills and through their use regained good health. Later an attack of influenza left me very weak again, and I began taking them. I can recommend them to anyone who is weak or run-down."

Some Quaint Rental Customs Have Been Handed Down in England For Centuries

Among the strangest of England's medieval customs which have been handed down to posterity is that of the "quit rents" of six horsehoes and a bundle of faggots solemnly paid to the British Law Courts annually to the King's Remembrancer. There are for certain tenants under the Crown. The manor Donby, in Lincolnshire, again, is held on condition that the holder shall bear a white rod before the King at Christmas if ever the Sovereign happens to spend the festival in that county, whilst a Sussex manor costs its holder the trouble of carrying a banner across the county when the King passes through it in war array.

LITTLE HELPS FOR THIS WEEK

Take therefore no thought for the morrow—Matt. vi, 34.

I think not of to-morrow. His trial or its task. But still with childlike spirit For present merces ask. With each returning morning I cast old things away; Life's journey lies before me, My prayer is for to-day.

Let us take short views. Let us not climb the high wall till we get to it, or fight the battle till it opens, or shed tears over sorrows that may never come, or lose the joys and blessings that we have by the selfish fear that God will take them away from us. We need all our strength, and all the grace God can give us for today's burdens and today's battle. Tomorrow belongs to our Heavenly Father.

—Theodore L. Cuyler.

Nothing else makes the time pass so quickly as a ninety-day note.

A bride is all right when she is well groomed.

NERVES AND FAINTING SPELLS

Send Woman to Bed. Great Change After Taking Lydia E. Pinkham's Vegetable Compound

Sarnia, Ontario.—"After my girl was born I was a wreck. My nerves were too terrible for words and I simply could not stand or walk without pain. I suffered with fainting spells until I was no longer any good for my household duties and had to take to my bed. The doctor said I should have an operation, but I was not in a fit condition at that time. My neighbors said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' I am sure it will do you good and will save those doctor's bills. So I was advised by my husband to try it after I told him about it. I am very thankful to say that after a few months I am able to take a few boarders for a while as rooms were scarce at that time. My baby is 17 months old now and I have not yet had an operation, thanks to your medicine. I have recommended the Vegetable Compound to a few people I know and have told them the good it has done me. I know I feel and look a different woman than I did a few months ago and I certainly would not be without a bottle of your medicine in the house. You can use this letter as you see fit, as I should be only too glad for those suffering as I have to know what it has done for me.—Mrs. ROBERT G. MACGREGOR, R. W. 2, Sarnia, Ontario.

A recent canvass of women users of the Vegetable Compound report 88 out of 100 received beneficial results. This is a remarkable proof of its merit. G

MAKES PLEA FOR BETTER UNITY AMONG FARMERS

Regina.—In a strong plea for the amalgamation of the Saskatchewan Grain Growers' Association and the Farmers Union of Canada, A. J. McPhail, president of the Saskatchewan wheat pool, told the grain growers convention that unity among all farmers' organizations in Saskatchewan would have a great bearing on the success of the wheat pool.

"There are three great farmer companies now and I hope there will be as great a measure of co-operation between them as it is possible to have," he said. "The policy of the directors of the pool will be such as to lead to complete unity among those organizations at as early a date as possible. Complete unity is the end to be kept in view."

"There are two farmers organizations in Saskatchewan (the S.G.A. and the Farmers Union of Canada) with the same objectives but with perhaps different viewpoints as to how those objectives can be secured. But the two organizations will recognize their common objective more rapidly together than separately."

Wheat Board Surplus

Manitoba Government Plans to Create a Trust Endowment

Winnipeg.—With its share of the undistributed balance of the Canadian wheat board surplus, the Manitoba Government plans to create a trust endowment and apply the revenue to the advancement of agricultural efforts, especially in combating the rust menace. The Federal Government statement of the wheat board shows an undistributed balance of \$569,016, which would place Manitoba's share at approximately \$128,000.

The Provincial Government does not take kindly to the recommendations attached to the order-in-council with respect to the disposition of the funds. Premier Bracken said that, while the money actually belonged to the wheat growers of the province, it would be a difficult problem to carry out individual distribution.

Will Represent Manitoba

Toronto Lawyer Will Argue Validity of Grain Futures Tax

Winnipeg.—W. N. Tilley, K.C., of Toronto, will act with Geoffrey Law, K.C., of London, Eng., as counsel for the province of Manitoba in the hearing of the appeal on the validity of the grain futures tax before the privy council next March. The appointment of Mr. Tilley was influenced, according to government officials, by the fact that Saskatchewan and Alberta will be represented by Eugene Lafleur, K.C. It was felt advisable that Manitoba should likewise be represented by a Canadian lawyer.

Aids War Veterans

Wellington, N.Z.—The New Zealand Government has been generous to its discharged soldiers. It has advanced sums totalling \$30,500,000 to the ex-soldiers, a large portion of this being by way of encouraging them to go on the land, and the balance to enable town dwellers to settle down in a fair degree of comfort.

Step Towards Prohibition

Berlin.—The German anti-alcohol league has demanded the transformation of the vineyards into potato fields as a step toward prohibition.

Constipation Vanishes Forever

Prompt—Permanent—Relief CARTER'S LITTLE LIVER PILLS never fail. Purely vegetable—act surely but gently, on the liver.

Stop after-dinner drowsiness—correct indigestion—improve the complexion—brighten the eyes. Small Pill—Small Dose—Small Price

Expect To Ratify Extradition Treaty

Washington, D.C.—The United States is expected to take prompt action to ratify the extradition treaty with Canada. This is the treaty signed here recently by Hon. Ernest Lapointe, Canadian minister of justice, and Secretary of State Hughes. It has been reported favorably to the senate by the foreign relations committee and Senator Borah, chairman, expects to obtain early ratification by the senate without opposition.

Says Navigation Laws Violated

Attorney-General Stone Would Bar Canadian Ship Cargoes From U.S. Ports

Washington.—Shipment of United States grain from lake ports such as Chicago and Milwaukee in Canadian vessels to elevators on Georgian Bay wharves, in some cases, a violation of the coastwise navigation laws of the United States. Attorney-General Stone has ruled in an opinion given to the commerce department.

The coastwise navigation laws forbidding the carriage of United States goods or passengers between United States ports in other than United States vessels and Mr. Stone's ruling holds that if the shipper, in sending grain to the Georgian Bay elevators intends to bring it back into the United States, the Canadian facilities are used merely as one stage of a shipment between ports of the United States.

Where Is the Wheat?

Efforts Are Being Made to Locate Stocks Available

Winnipeg.—Concerted efforts are being made to locate stocks available on the prairie. Movement to January 23 shows the C.P.R. have delivered to elevators a total of 5,171 cars as compared with 7,577 for the same period last year, while the Canadian National delivered to the same date 2,188 cars compared with 5,109 for the same period last year. Permits of both railways, including cars enroute east of Field and Jasper, amount for 6,730,000 bushels more. The United Kingdom has received 12,519,168 bushels; Orient, 2,765,876; other small exports account for a total of 15,761,035 to January 23.

Intercost is vital as to where the balance of the Canadian crop outside the terminals can be located.

Four Hundred Mile Race

Dog Teams Rushing Anti-Toxin To Nome, Alaska

Anchorage, Alaska.—Moving on a 400-mile, snow covered path, the fastest and most faithful dog teams in this district are on the road to Nenana, Alaska, in a race against the advances of an epidemic of diphtheria raging at Nome. The teams carry 300,000 units of anti-toxin to be used in fighting the epidemic. The serum which left there for Nenana, north of Anchorage, was supplied by Dr. J. B. Benson, who made the 600-mile dog team race to Inupiat in 1920 with diphtheria anti-toxin.

To Superintend Drug Traffic

Geneva.—Leaders of the International Opium Conference here, including Lord Cecil and Representative Stephen Porfir, respectively heading the British and United States delegations, met privately today and decided that the central board to supervise the international traffic in narcotic drugs should be appointed by a special group of the powers, including the United States.

Less Settlers' Effects Leave

Ottawa.—Settlers' effects leaving Canada last year were \$3,452,426, against \$10,508,167 the year before. Settlers' effects entering Canada were \$6,525,131, against \$6,001,107 the year previous.

Exports and imports of settlers' effects are sometimes taken as an indication of the course of migration.

Extending Air Ambulance Service

San Francisco.—The army is extending its air ambulance service and has designed a plane that will carry at least eight patients, a surgeon and a pilot. It was announced recently at Crissy Field here.

Delivers Opening Address

Hon. C. M. Hamilton, Minister of Agriculture in the Saskatchewan Government, who formally opened the Saskatchewan Grain Growers' annual convention at Regina.

Attend Moscow Conference

Organizer of Farmers' Union Was Invited By Soviets

Saskatoon.—Alton Ernest Bolton of this city, has left to attend by the international conference on agriculture, to be held shortly in Moscow. He goes at the invitation and expense of the Union of Socialist Soviet Republics, the invitation having come as a result of a pamphlet dealing with Canadian banking and farming relations written by Mr. Bolton, which changed to reach Moscow.

Mr. Bolton was a defeated candidate in Touchwood constituency in the last provincial general election and has been prominent as an organizer for the Farmers' Union of Canada.

For Lepers in India

Appeal Is Made For Relief By Lord Reading

Delhi, B.I.—There is one leper among 300 or 400 of population in India, according to a statement by the viceroy, Lord Reading, in announcing an appeal in behalf of the Leprosy Relief Association. The scheme for which the appeal is made, and which has the backing of the Prince of Wales and the ruling Princes of India, is a far reaching one and involves a big expenditure, which it is hoped to meet by voluntary subscriptions.

War Memorial Design

Ottawa.—The terms for the sculptors' competition in designs for the proposed \$100,000 war memorial having been drafted, announcement of their nature is expected shortly. Designs will be accepted from allied countries.

PLAN TO VISIT DOMINION

PRINCESS MARY AND VISCOUNT LASCELLES
So successful was the recent visit of the Prince of Wales to Canada that Princess Mary and her husband, Viscount Lascelles, have virtually decided to make a trip to the Dominion next year. It is announced authoritatively in London. The visit, it is added, will be in every way an informal one.

Distemper

Minard's is the best remedy for distemper and other ill of horses, cattle and dogs.

Should Give Of Best Says President Coolidge

Washington.—Christian churches and governments of the world were declared by President Coolidge to have "no greater responsibility than to make sure that the best, and not the worst, of which Christian society is capable, shall be given to other people. This, with other views on the foreign missionary question, were presented by the president in an address to the meeting here of the Foreign Missions Conference of North America, an interdenominational gathering of the foreign mission interests of the United States and Canada.

May Help Russo-Jap Trade

Believed Treaty Will Mean Immediate Exchange of Commodities

Vancouver.—With the recent signing of the Russo-Japanese agreement at Peking, leading business men in Japan have expressed varied opinions regarding the immediate effect of the agreement on Russo-Japanese trade, according to passengers who reached Vancouver from the Orient on the Canadian Pacific Express of Asia.

Mr. H. G. Fujiwara of the Osaka Russo-Japanese Trading Company, is quoted as saying that the signing of the treaty should mean the immediate exchange of commodities between the two countries. From in and around Utsuki, limited goods, cotton goods, cotton yarn, newspaper and lumber have good prospects for exportation. From Russia should come salt, hemp and cereals. With the increase in the volume of trade, an imposing mercantile fleet could be built up to link Kobe with Russian ports, and business could be extended from Siberia to European Russia.

Greece Willing To Disarm

But Asks Other Nations to Sign Guarantee Pact

Geneva.—Greece will disarm, but only when the nations sign a general treaty offering real guarantee. That is the gist of a communication received by the League of Nations from the Athens Government, which, like the other governments, had been invited to set forth its attitude on the resolution of the league assembly that no governments should exceed in the future their current year expenditure on armaments.

Form Relief Committee

Geneva.—The League of Nations has named a special committee which will report on the plan of forming an international federation for the mutual assistance in the relief of peoples overtaken by disaster.

EXPLANATION IS GIVEN FOR HIGH WHEAT MARKET

Toronto.—The sensational movement of the wheat market has been brought about by the buying of Canadian flour for Russia, according to a Toronto man, who is informed regarding milling matters, says the Toronto Telegram, which continues:

"It is generally understood that one big milling concern has an order for 50,000 barrels, and another an order for 150,000 barrels. In fact, all the big Canadian mills are said to have requests for flour for Russia. It is stated that Russia would take a total of 1,000,000 barrels from Canada if such an amount could be obtained. But, with only about 37,000,000 bushels of wheat in the west, and small supplies in Eastern Canada, well informed men declare that Canada could not fill an order for one million barrels without running short for home supply and for seed wheat."

Transfer Natural Resources

Final Conference Between Dominion and Alberta Governments Pending

Ottawa.—The dominion being prepared for a final conference here, probably this month, between the Dominion and Alberta Governments in connection with the transfer to the province of its natural resources.

The principal economy settled, but a number of points of detail have arisen and these are being dealt with by officers of the justice and interior departments. So far as Manitoba and Saskatchewan is concerned, there is no apparent change in the situation these provinces insisting upon a continuance of the subsidy, as well as the resources, having regard to the extensive administration or sale under the federal administration.

Talked To Australia

Radio Message From Pittsburgh Heard Distinctly in Several Cities

New York.—A human voice spoke the air across the continent, crossed the Pacific Ocean and delivered its message to hundreds of thousands of persons in Australia, more than 8,000 miles away. Officials of the Westinghouse Company, through whose station, "K.D.K.A.," at Pittsburgh, the test was made, declared the achievement to be the greatest in radio history.

A cablegram received here several hours after the broadcasting said that the voice had been distinctly heard by radio set owners who had "tuned in" at Sydney, Australia, and at Rabaul, the capital of British New Guinea.

Take Revenge On Bulgarian Town

Sofia, Bulgaria.—Two villages inhabited by Bulgarians on the Greek side of the frontier, have been surrounded by troops, the police and inhabitants severely beaten and some driven into the interior because of the alleged killing of two Greeks near the border, according to the refugees at Nevrokopi. The news has aroused much feeling in Sofia.

Claim Effort to Block Compact

Paris.—An agreement between the German metallurgical and mechanical interests is alleged by the French press to be hampering the Franco-German negotiations for a commercial pact. Both these interests are said to be trying to stop the negotiations in revenge for non-fraternal to the allies of the Cologne zone.

Air Map Of Mt. Everest

Calcutta.—Allan J. Cobham, a British aviator, plans to take aerial photographs of a hazardous, hitherto unexplored route on Mount Everest which will then be followed by an expedition.

Mush! Mush!

Through the streets of Quebec. Even driving through these historic by-ways in the calesche does not have the charm of a run through them in a husky-drawn carriage. There's a tawny in the air and such an atmosphere as could be found nowhere else. Exhilarating and full of color and life. This is the Chateau Frontenac team.

ANNUAL DOG DERBY AT THE PAS

Upper photograph shows C. B. Morgan's team, winners in the 1923 derby, with W. Grayson driving. In the centre is Sherry Russick, with his 1924 winners, which finished the 200-mile non-stop run in the record time of 23 hours 52 minutes. The lower photograph shows a sleigh loaded with 100 pounds weight, ready for the two-day freight race, which is an added feature of the 1925 derby.

DOG mushers in Northern Manitoba are out on the trail every day grooming their teams for the eighth annual 200-mile non-stop dog derby, which is being held on February 3rd, 1925. Although the race is still some time away, more than 100 dogs are being given their daily stint of trail work in preparation for the grind. Several new teams, composed of young, well-bred wolf-hound huskies are being trained and this introduction of new blood is expected to lead to a new and startling pace being set in the 1925 contest.

This year the teams will race over a new course, the Herby Lake gold camps having been set as the turning point. The starting point will be at the Hudson Bay Railway bridge over the Saskatchewan River, and the teams will follow a route which is served with telephone communication so that frequent progress reports will be available.

A five-dog team freight race has been added to the programme this year to provide a new feature. In this sleighs will be required to carry a load of 100 pounds and the

team will race 30 miles each day for two days. The object of this is to promote the breeding of good freighting dogs.

The Carnival Queen contest is already attracting much interest with entries having been made from several western cities and towns. The queen and members of her court are the young ladies who secure the highest number of votes and these have all their expenses paid to and from the derby, and are also guests of honor during the entire week that the carnival is held.

**WORLD HAPPENINGS
BRIEFLY TOLD**

Field Marshal Baron Greenfell, one of Great Britain's most noted military leaders is dead.

Toronto oil companies have announced an increase of two cents a gallon in the price of gasoline, effective immediately.

A new radio development to revolutionize broadcasting is predicted, following the non-carrier wave recently invented.

Roderick McKenzie, outstanding figure in organizing the United Farmers of Manitoba, is dead, following a paralytic stroke.

The United States senate has ratified a treaty with Great Britain dealing with the extradition from Canada of persons charged with violating the Harrison Narcotic Act.

Ramsay MacDonald, the former British prime minister, and the British parliamentary delegate who have been visiting Central America, have returned to England.

There will be no change in the hall insurance rates for Manitoba this year, but some slight changes will be made in certain sections of Saskatchewan and Alberta, according to an announcement made by the Hall Underwriters' Association.

Automobile accidents in the United States are increasing at the rate of 2,000 a year, says the Eyesight Conservation Council of America, which believes that defective vision is responsible for a large percentage of them.

Reginald McKenna, chairman of the board of directors of the Midland Bank and former chancellor of the exchequer, states that sterling probably will soon stand at its gold value, because the dollar, under pressure of the surplus gold supply, will have come down to the pound's level.

Increased Duty

The federal customs board decided on garments of French or other manufacture used temporarily as models while in transit through the United States will increase the duty. Value for duty shall not be less than cost to the U.S. purchaser, less deterioration allowance.

Advices Young Mothers

—The Maternal Photo Studio

MRS. CLAYTON HURAS
Stratford, Ont.—"Dr. Pierce's Favorite Prescription gives strength and is the greatest help in motherhood of any medicine I know of. I have four very healthy children and during each expectant period I took 'Favorite Prescription' and it got along fine, my strength kept up and I had no distress or suffering to speak of, which most women have to endure at this time. 'Favorite Prescription' keeps a woman in perfect physical condition all thru this trying period."—Mrs. Clayton Huras, 215 Railway Ave.

Unsinkable Ships

German Engineer Claims to Have Made An Important Discovery
What is claimed to be an invention which renders ships unsinkable was given a trial on Lake Constance recently, according to the Berlin Tageblatt. The inventor, a German engineer named Liberran, installed the apparatus in a boat with a cargo of 300 kilograms (660 pounds). Liberran then sank the boat, declaring it would re-appear within an hour. This it did. The dispatch adds that details of the invention are not available.

**Suffered With Rheumatism
For Several Years**

Saskatchewan Man Completely Relieved By Dodd's Kidney Pills

Hundreds of men in Canada have been relieved of their aches and pains by Dodd's Kidney Pills.
Ottawa, Sask.—(Special).—That rheumatism is caused by disordered kidneys and that Dodd's Kidney Pills will relieve it, is again proved by the case of Mr. John Chesney, a well-known and esteemed resident of this place.

He has suffered with rheumatism for several years. One box of Dodd's Kidney Pills has given him complete relief. I am happy to be able to say a good word of your pills to all my friends.

It is astounding how many people go on suffering day after day with aches and pains, rheumatism and back-ache. They suffer because they are not aware of the fact that they can get relief. Strengthen the kidneys, which are the source of the trouble, and these pains vanish. Dodd's Kidney Pills act directly on the kidneys. They heal and strengthen them so that they do their full work of straining all the impurities out of the blood.

**Saving Strength For
South American Visit**

Prince Expects to Have Strenuous Five Months' Trip

The Prince of Wales is conserving his energy these days for the strenuous five and a half months' trip to South America and the Argentine, on which he starts at the end of March. His appearance at organization dinners and other public functions, which ordinarily take up a great part of his time, have been few and far between since his sojourn in Canada and the United States.

Following his South American trip, the Prince will pay his second visit to Ireland. His first trip to Ireland was as long ago as 1911, when, with his sister, Princess Mary, he accompanied the King and Queen to Dublin in the month of July. The occasion of his second visit will be in celebration of the bicentenary of the Grand Lodge of Free Masons of Ireland, of which he will be installed senior grand master.

Will Sail North Again

Shackleton's Famous Ship, "The Quest," to Penetrate Frozen Reins

Sir Ernest Shackleton's famous exploration ship, "The Quest," sturdy veteran of the Arctic, this year will penetrate the frozen realms of the polar sea. It will carry two hunting expeditions, one to the White Sea by way of Nova Zembla and Franz Josef Land, retreating by way of Bear Island and Spitzbergen and the other to the remote island of Jan Mayen, and the east coast of Greenland. Seal, polar bear and musk oxen will be the principal game sought.

Captain Schickler, noted northern shipper and sailing master of the Oxford University Arctic expedition in 1923, will be in command of "The Quest."

Banbury Closes
Mr. Lloyd George has invested £100 in a scheme to give the quaint town of Banbury, of "Banbury Cress" fame, a properly equipped market for agricultural produce and livestock to replace its ancient street market. The scheme is being promoted by A. F. McLaughlin, the war-time commissioner for livestock, who is organizing a company with a capital of £40,000.

The world membership of the Boy Scouts movement is now nearly 2,000,000.

Silk alpaca, which really is not a silk at all, is made from the hair of the Peruvian sheep.

Minard's Liniment for the Grippes

CHIBLAINS
Zam-Buk soon affays the

anesthetic power.

Famine in Russia

Police: Ghost and Kill Starving People At Astrakhan

The Moscow press is unable to ignore the famine which has engulfed 11,000,000 people in the Southern Ukraine and Lower Volga districts. Reports from the Saratov, Tatarsk, Astrakhan, Kuzan and Stavropol districts say a large percentage are eating bark and refuse.

Astrakhan was the scene of a riot when 200 starving people began a fight over possession of garbage cans at the Hotel Europe, which is occupied by local Soviet officials. The police fired upon the crowd, killing five.

Island Disappears

Considerable Loss of Life is Feared When Island off African Coast is Submerged

Port Alexander, a small isle in Angola, the Portuguese colony of West Africa, has been suddenly submerged in the sea and has completely disappeared, according to a Lisbon dispatch to the London Sunday Express.

No details have been received, but a considerable loss of life is feared, as the islet, which was 4,000 square yards in area, was inhabited by Portuguese and native settlers.

**WALKED THE FLOOR
FOR HOURS**

NERVES WERE SO BAD

Wherever there are people who are troubled with deranged nerves they will find in Milburn's Heart and Nerve Pills, a remedy that will restore the equilibrium of these deranged centres and bring back the shattered nervous system to a perfect condition.

Mrs. W. W. Aalhouse, Woodroos, Ont., writes: "After having a severe attack of bronchitis I was left in a very weak, run-down condition; my nerves were all broken up; could not sleep at night, and would have to get out of bed and walk the floor for hours."

**MILBURN'S
HEART AND NERVE PILLS**
I began to feel much better, and after taking a few more boxes I could enjoy my rest as well as I ever did. I always recommend them to all my friends."

For sale at all druggists and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Cuba has 40 broadcasting stations. There are 18 in Havana alone, more than in any city in the United States.

Complete in itself, Mother Graves' Worm Extirminator does not require the assistance of any other medicine to make it effective. It does not fall to do its work.

Airplane With Movable Wings
A soaring airplane with movable wings has been built. It has a 20-horsepower engine and the inventor claims it is capable of flying 50 miles on a gallon of gasoline.

**Cuticura Talcum
For Young And Old**
After a bath with Cuticura Soap and warm water Cuticura Talcum is indispensable in soothing and cooling tender or irritated skins. They are ideal for all toilet uses.
"I have used Cuticura Talcum for years and it has been a great help to me. It is the best of all talcums."—Mrs. J. H. Smith, New York City.
Try our new Shaving Soap.

SUNDAY SCHOOL LESSON

FEBRUARY 3
CHRIST'S INTERCESSORY PRAYER

Golden Text: Holy Father, keep these in thy name which thou hast given me, that they may be one, even as we are. John 17:11.
Lesson: John 17:1-26.
Devotional Reading: Ephesians 3:14-21.

The Text Explained and Illumined
Christ's Prayer For Himself, verses 1-5. After His farewell discourse Jesus lifted up His eyes to heaven and said, "Father, the hour is come; glorify thy Son, that the Son may glorify thee. To glorify means to make manifest, and Christ's words here mean, 'Show now the character of thy Son that he may show thy character.' By His request to be glorified, Jesus referred to His Crucifixion, His triumph over the grave, His ascension, and supremely His outpouring of the Holy Spirit. Jesus desired to be made known in His true character, as the divine Son of God, as the Messiah, as the Savior of the world" (Dr. C. R. Erdman). This is indicated in the next words of His prayer, "Even as thou hast given Him authority over all mankind" (verse 18), that to all whom thou hast given Him, He should give eternal life.

And then Jesus defined His eternal as knowing God and Himself, the Son of God. "No human presumption, since the beginning of the world to the present time, has ever dared to compare His name with the name of the eternal God as essential to eternal life, as Christ does here. These and what a wonderful assertion!" (Dr. Alexander McKenzie).

Airplanes Carry Precious Cargo

Diamonds and Gold Transported Quickly Over Belgian Congo

Precious stones were part of the cargo of the airplanes flying over the 1,000 miles of tropical jungle between Kuchaka, the capital of the Belgian Congo, and Kinsanga, in the interior. No fewer than 25 aeroplanes and landing grounds have been built in the swamps and jungles around the Congo, providing a continuous chain of ailing grounds. The principal "cargoes" on the air route will consist of diamonds, gold and ivory, which will be brought from the interior to the capital in a single day instead of in a week as by present transport methods.

Carter Starts Work Again

Everything Sealed in Tomb Found in Good Condition

A dispatch to the Exchange Telegraph from Luxor, Egypt, says the tomb of Tutankhamen was opened in the presence of government officials and members of the antiquities department. The contents of the tomb taken out last year, were handed over to Howard Carter, the Egyptologist. Carter found everything that had been sealed when the tomb was closed remained intact.

The priceless pall of sarcophagus, which had been left outside the tomb in a tin wooden shed, however, had deteriorated probably beyond repair.

Mothers Value This Oil—Mothers who know how suddenly crank may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

Old Employees Honored

Every Member of British Dairy Company Received Present

One of the foremost dairy companies of Great Britain has a long service corps connected with it; the members being made up of employees who have been in the service of the organization for 50 years.

The corps boasts of a membership of 261 men and 21 women and when the members met recently for a dinner each one of them was presented with a gold watch, a silver badge and a certificate of merit. Included were nearly all the directors of the company, and the most humble milk roundman.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

Every middle-aged woman is set in her ways and opinions, but you can't induce her to admit it.

Minard's Liniment for Sprains and Bruises

Fine for catarrh when melted in a spoon or insufflated up the nose and vapors inhaled.

Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately inflamed, congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly. Splendid for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh, asthma or hay fever. Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

VICKS VAPORUB
Over 17 Million Jars Used Yearly

Ex-Kaiser Renews Youth
Former Emperor Wilhelm of Germany has undergone a "monkey gland" operation and looks "younger than the green prince," the London Sunday Express says. The Express' Paris correspondent quotes a Mrs. Pettit, an American woman, who spent the holidays at Dorn, as saying that the emperor is as sprightly as a youth, with a beard and moustache no longer grey.

Stony Plain and District.

Meridian Lodge members held their regular monthly convauc Tuesday night.

Mr L. Kowensky made a business trip to the City on Monday.

A farewell party was given at the home of Mr and Mrs H Schindler on Friday Jan. 28, in honor of Mrs Albert Loeblich, with only a small number of relatives and intimate friends present. A very enjoyable time was spent, and a splendid midnight lunch was served. On departing, everyone present wished her success and prosperity in her new home.

At the election on Monday last in Holborn school district the new trustee elected was Mr L M Larson.

Duffield U. F. A. shipped two cars of hogs last week.

The new directory of Alberta Government Telephones was placed in the hands of subscribers this week. This directory is much more elaborate than any published here before, and includes the City of Edmonton, Edmonton Rural and Edmonton business directory. While the directory is dated January 1925, copy for the edition closed Nov. 15, and therefore a number of changes have taken place in the meantime.

Weather conditions Friday night could not keep the crowd away from Holborn Hall, where the pie social and dance took place. The succulent pie was much in evidence, and included all varieties and makes, from the large mince down to the little hand-sewed, patty-like, mother didn't make. The dance was well patronized.

The 1925 session of Alberta's Legislature will be convened Feb. 19. A session of 6 or eight weeks is anticipated. An adjourned session may be necessary later in the year to deal with the northern railway problem following negotiations now under way between the C.P.R. and C.N.R. authorities.

A new regulation prohibiting the use of spirits or hard liquor at Banquets in the province has just been passed by the Liquor Control Board. Beer and wine will be permitted under permit.

Applications for auto licenses may be had at The Sun Office.

Buying on Margin

A few of the local residents have caught the speculative fever during the recent phenomenal rise in the price of wheat, all coming out, so far, ahead of the game, altho during the flurry on Thursday last when the price dropped 10c several cashed in on their holdings. Oats is now thought to be the best venture, as this grain is said to be due for a big advance. One local farmer last week "bought" 10,000 bushel at the Winnipeg price of 49c, putting up \$500. Several others bought smaller lots, and expect to reap a goodly sum on their "investment." In fact, the optimists feel sure, owing to the scarcity of feed and seed oats during the spring, this grain should reach the dollar mark.

News from the Grove.

Mrs Bendick of Ledue is visiting this week with her parents, Mr and Mrs J W Johnston.

Miss Marie Loeblich, who had been attending Victoria High School, has returned to her home here.

The concert at the Union Church, Spruce Grove, on the 29th under the auspices of the Ladies Aid was very well attended, and the recitations and songs were well rendered, altho owing to the storm several artists from the City were unable to be present.

Everybody will dance at Schwindt's Hall on Saturday evening next Feb. 7. Music supplied by Bob Ray's Mellow Moon Orchestra, from Edmonton.

Monday, Feb. 16, is the date set for the basket social and concert at Schwindt's Hall, under the auspices of the Ladies Aid of St. Joseph Church. A fine array of talent has been engaged for the occasion, and this should prove to be a very successful affair.

Old Phil predicts a backward spring. The groundhog came out of his hole on Feb. 2d, seen his shadow and went back in again—this meaning six weeks more cold weather.

A nomination meeting for Spruce Grove M. D. will be held in the municipal hall, at the Grove, on Sat. Feb. 21, with Returning Officer Mathias Gabel presiding. There will be an election in each of four divisions. Those councillors whose term have expired are: Brox, Sinclair, Schulz; and an election will be held in Mr Conch's division, as this councillor is removing from the municipality.

TOWN OF STONY PLAIN.

MUNICIPAL ELECTIONS, 1925.

PUBLIC NOTICE IS HEREBY GIVEN that an election will be held for the office of Councillors of the Town of Stony Plain for the years 1925 and 1926 and that the polling will take place on MONDAY, the Ninth Day of February, 1925, from Ten o'Clock in the Forenoon until Seven o'Clock in the Afternoon at the Town Hall at the Town of Stony Plain, and that I will at my office on Tuesday, the Tenth day of February, 1925, at Ten o'Clock in the Forenoon sign up the voters and declare the result of the election.

Given under my hand at Stony Plain this 3d day of February, 1925.

F. W. LUNDY.

Returning Officer.

Birthday Party Tuesday Evg.

A large party of charming young people met on Tuesday evening and marched to the home of Mr and Mrs J Miller, Fourth St. W., to give a surprise party to their young daughter, Miss Margaret, in honor of the fourteenth anniversary of her natal day. Games of all kinds were indulged in, and all had a very enjoyable time. Miss Margaret was the recipient of a number of handsome gifts, as souvenirs of the occasion. A dainty lunch late in the evening brought to a close the evening's pleasures. All left wishing this popular young lady many happy returns of the day.

Among those present were: Misses Emilin and Susan Miller, Miss Mary Hennig, the Misses Carrie and Emma Armbruster, Miss Mahilda Enders, Miss Teresa Goetz, the Misses Anna and Martha Miller, Messrs L. Hennig, H. Trapp, E. Daubman, Walter Miller, Jackie Miller.

Railway Time Table.

5.43 a.m., every morning, stops on flat only.
Going west, 1.30 p.m.—Prince Rupert, Exynos, Monday, Wednesday and Saturday.
1.03 a.m., every day, Vancouver Express; stops on flat only.

Here and There

That Hollanders who have located in Alberta are making good and are satisfied is the statement of Baron W. Van Haeckere, of Rotterdam, after a recent tour of investigation.

The forming of a mining bureau as a branch of its activities is announced by the Winnipeg Board of Trade. The bureau is to collect data on the mining situation in the province and will do everything possible to foster greater mineral production in Manitoba.

Tourist traffic in Canada this year is likely to constitute a new record, in the opinion of the Commissioners of Parks. No estimate has been compiled as yet but the figures for 1923, which were carefully estimated at \$125,000,000, indicate the value of this traffic to the Dominion.

Up to the end of October, 1924, more than 1,000 circulating libraries were in operation in Saskatchewan, as compared with about 800 at the same time in 1923. The average number of families reading each book is 17. More than half a million volumes were circulated by these libraries during the year.

A huge wooden, tar-paper lined shell erected over the space provided for the structure and heated by thousands of feet of steam coils connected with 350 horse power boilers, which provide a summer-like atmosphere for the carrying on of construction, is an interesting and novel feature of the arrangements made to combat the difficulty of building the new wing of the Canadian Lake Louise, the Canadian Pacific Railway's famous Rocky Mountain hotel, under winter conditions. Thanks to this innovation, the wing, despite frequent drops in temperature to far below zero, is progressing excellently and the company expects it to be ready for next summer's tourist season.
